

RESOLUTION NO. 99-174

A RESOLUTION OF THE LODI CITY COUNCIL AUTHORIZING
THE CITY MANAGER TO PROVIDE A PUBLIC BENEFITS
PROGRAM GRANT TO FUND PROJECTS SPECIFICALLY
DESIGNED FOR THE RESIDENTIAL ELECTRIC CUSTOMER
(LODI RESIDENTIAL AIR DUCT TESTING & ATTIC INSULATION
REBATE)

=====

WHEREAS, the State has mandated that beginning January 1, 1998, the City of Lodi is obligated to fund various programs through a Public Benefits Charge (PBC) based on a historical electric revenue requirement; and

WHEREAS, the requirement amounts to approximately \$1M per year that must be dedicated to qualifying programs such as energy efficiency. A further stipulation is that these efforts must be done on the customer's side of the meter in order to qualify; and

WHEREAS, the City of Lodi's Public Benefits Program is comprised of four segments or customer groups: commercial/industrial, residential, community/non-profit, and municipal; and

WHEREAS, this project is the fourth in a series of projects specifically designed for Lodi residential electric customers. The Lodi Residential Air Duct Testing & Attic Insulation Rebate Project will provide up to a \$250 rebate for duct repair, and up to a \$250 rebate for attic insulation (not to exceed \$600 per service address) when a customer chooses to strengthen existing duct work, and/or enhance the amount of attic insulation in their home, thus, reducing annual heating and cooling costs by a minimum of 15%.

WHEREAS, other specifics or guidelines of the project include:

- Rebate is only for City of Lodi electric utility customers;
- Rebates are available from January 1, 2000 to December 31, 2000;
- Rebates are good for single-family dwellings only (duplexes are acceptable; one per customer service address); and
- Electric Utility staff will be responsible for providing rebates to residential customers.

To date, the City of Lodi Electric Utility has established three other energy efficiency (demand-side management) projects for residential customers:

- Lodi Energy Survey Program;
- Lodi Residential Energy Efficient Refrigerator Rebate Program; and
- Lodi Residential Cool(ing) Cash HVAC Retrofit Rebate Program.

BE IT RESOLVED, that the Lodi City Council hereby authorizes the City Manager to provide a Public Benefits Program grant in the amount of \$175,000 to fund the Lodi Residential Air Duct Testing & Attic Insulation Rebate Project, specifically designed for Lodi residential electric customers.

Dated: November 3, 1999
